

IMS POLICY

REV-01 DT: 17.04.2025

Sangreen Future Renewables Pvt Ltd is committed to the effective management of quality, health, safety, and environmental risks across all aspects of our operations. We recognize that this commitment is crucial to our continual success and plays a key role in upholding the high standards of service we deliver to our customers. We also firmly believe that our people are our greatest strength. That's why we place the highest priority on creating and maintaining a safe, healthy, and supportive work environment for all employees.

We are unwavering in our commitment to achieving excellence in QHSE through the following key principles:

- **Implementing and maintaining** an effective management system aligned with internationally recognized standards, including ISO 9001, 45001 & 14001.
- **Pursuing continual improvement** in quality, environmental, health, and safety performance, with the ultimate goal of zero complaints, zero injuries, and zero emissions of toxic or hazardous substances.
- **Ensuring compliance** with all applicable legal and regulatory requirements. Where such requirements are absent, we will establish and follow internal standards that reflect the intent of this policy.
- **Proactively identifying, monitoring, and mitigating** significant environmental aspects and occupational hazards to provide a safe and healthy workplace for all.
- **Incorporating advanced environmental protection measures** and pollution prevention strategies, including the elimination of hazardous waste generation wherever feasible.
- **Establishing measurable QHSE objectives** and regularly evaluating our performance against key performance indicators (KPIs) to drive continual improvement.
- **Collaborating with partners and suppliers** who share our QHSE values and holding them accountable to the same high standards.
- **Encouraging active consultation and participation** of all workers to help us achieve zero harm to people and minimal impact on property and the environment.
- **Providing regular training and awareness programs** to ensure all stakeholders understand and adhere to our QHSE policies and procedures.
- **Integrating QHSE best practices** into our global business strategies and operational processes across the entire organization.

Implementing this policy into action, we are dedicated to upholding the highest standards of performance, striving to ensure that every one of our worksites achieves excellence in Quality, Health, Safety, and Environmental (QHSE) practices very single day of the year.

We strongly believe that through the unwavering commitment, active cooperation, and diligent efforts of all stakeholders within our business unit, these goals are not only achievable they are inevitable
